Biennial Educational Technology Assessment (BETA)

What is Biennial Educational Technology Assessment (BETA)?

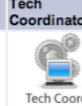

The FY08-09 Biennial Educational Technology Assessment (BETA 08-09) is a K-12 public school census comprised of two surveys that collect school district self-reported data regarding technology accessibility and usage in Ohio's public schools. Surveys are:

1. *Teacher Survey*: explores teacher and student use of technology
2. *Building Survey*: reports technology resources available at the building level

BETA participation provides a number of benefits including, but not limited to, the following:

- Completion of the BETA Teacher and Building Surveys are **required** for districts to be eligible for the following eTech Ohio grants and programs:
 - SchoolNet Plus
 - Professional Development
 - Enhancing Education Through Technology (EETT)
 - Competitive Professional Development Grants
- The BETA website and data are available to aid districts with:
 - Technology planning
 - Monitoring the progress of local technology plan implementation
 - Communicating about educational technology to your community and stakeholders.
- BETA is an important resource for state policymakers as they consider the progress and future needs of educational technology for Ohio schools.
